**CAUTION:** When an entry is followed by a plant part(s) in parentheses, only the plant part(s) identified in parentheses is approved for entry. For example, the entry that appears as “*Allium* spp. (bulb)” —then only the bulb is admissible; *Allium* with tops would be prohibited! On the other hand, the entry that appears as “Radish” would allow radish with tops.

<sup>1</sup> **CAUTION:** If a fruit or vegetable requires treatment as a condition of entry, then **REFUSE ENTRY** into Guam or the Commonwealth of the Northern Mariana Islands because they have no treatment facilities.
